Education

Btech Aug 2020 - Present

Vignan's institute of information technology

cgpa/Percentage : 7.8

12th Apr 2018 - Apr 2020

Career point

cgpa/Percentage : 73

10th Apr 2017 - Apr 2018

Narayana school

cgpa/Percentage : 75

Experience

Data science Oct 2020 - Aug 2021

Datamites Online

- We have worked on 4 different projects during the period of internship. 1. ITSM Ticket portal 2. Customer default prediction 3. CHURN Customer churn prediction 4. SALES-PRED Sales prediction 5. FORE Inventory forecasting
-

Skills

Python

CPP

data science

html

css

js

iot

Projects

Heart disease prediction

- The dataset involves various attributes of heart and uses a regression model for prediction. I have used logistic regression and attained 94 percent accuracy. Finally using flask I have build a front end application

Smart agriculture rover

- It is an iot based agriculture rover which has a Roger buggy suspension to travel on any terrain. And a weeder is attached at the front which helps to cut the grass. It is connected over Bluetooth and we have developed a app to control the device
-

Certifications

Data science foundation

Apr 2023 - Present

labac

Credential ID: lab1120172057

- <https://www.credential.net/80d1fc03-d2a6-4b27-8b6a-270282c66edd?key=cd71ff516c13b482b7185ae299bb35ad102b762c16356a9674b061665a6c9c40>

Cloud development leader

Apr 2023 - Dec 2025

Google cloud

Credential ID: bZe1TL

Other Interest

- Full Stack Development
 - Data Science
 - Web Designer
 - Data Analyst
